

## The Project

Surfacing to all carriageway, footways and cycleways of the new A41/Ploughley Road Interchange.

### Our part:

- Contracted by Galliford Try, CR MacDonald were tasked with carrying out all surfacing to the new A41/Ploughley Road interchange on behalf of Oxfordshire County Council
- A challenging deadline dictated a tight program that meant liaison with our client, subcontractors and supply chain was paramount.

### Our successes:

- Working in collaboration with Galliford Try, Oxford County Council, and their residents the interchange improvements were completed on time by a dedicated project team working day and night.
- Timely completion of the improvement work ensured that traffic can flow more clearly through this busy part of Bicester.
- Safer provisions made for pedestrians and cyclists to encourage more environmentally friendly modes of transport.
- All the project team were home safe on completion of the works.
- All material sourced from local suppliers reducing our carbon footprint.

Guy Miller – Project Manage, Galliford Try

*'I want to take the opportunity to thank you all for the collaborative working and dedication on the Ploughley Road / A41 project leading to its success & opening on time. We have all worked really hard on this project day and night to get this over the line and open for traffic by the 17<sup>th</sup> March so massive thank you to you all and your teams for maintaining the integrity of our commitment to Oxfordshire County Council and its residents'.*
