

## The Project

Working with BBLP to maintain and improve a sustainable network across Warwickshire, Solihull and Coventry.

### Our part:

- Working for Balfour Beatty Living Places, CR MacDonald are contracted to deliver all aspects of Highway Maintenance from routine activities to capital schemes including Highway surfacing throughout the county.
- Liaising with clients to ensure schemes meet their aims and objectives through a process of early contractor involvement
- Developing high level programmes of works to meet our clients' timescales and budget.

### Our successes:

- Supply chain partner of choice with Balfour Beatty Living Places.
- Creating a positive safety culture through the reporting of Close calls and Good practices
- Introduction of recycled foam mix materials into all footways and C & D carriageways produced from excavated carriageway material within the network to support Client aspirations of Net Zero Carbon
- Meeting KPI targets that aided BBLP in securing 3 years of extensions to the 7 year contract.
- Workforce upskilled to meet Client and contractual requirements with support from BBLP
- Strong relationship with our suppliers, mitigating demand constraints and supply assurance.
- Supporting social value with local recruitment, apprentices and charitable contributions
- Successfully delivered an active travel scheme, Green Apple awarded in 2022 for helping the environment.

*"CR MacDonald are an integrated supply chain partner, working closely with the BBLP team to deliver best in class services in and around the West Midlands*

*Mark Pearson – Contract Director,  
Balfour Beatty Living Places.*
